design & experience

L'attenzione meticolosa alla qualità, la scelta accurata dei materiali, il gusto per la sperimentazione delle linee, le collaborazioni con designer di fama internazionale, uno sguardo sempre rivolto alla praticità dei prodotti e alla loro versatilità: l'esperienza si acquisisce col tempo, la professionalità si apprende con la passione, il successo si costruisce giorno dopo giorno.

**Vezzosi** questo lo sa e grazie al suo percorso può dimostrarlo.

Linee essenziali, dettagli ricercati, un design che cattura la semplicità della bellezza, una perfetta fusione tra l'esperienza nella tecnica e le esigenze contemporanee. Il prestigio della tradizione creativa italiana al servizio di **Vezzosi** per riscoprire l'essenzialità della bellezza, definire uno stile, identificarsi con un forte segno di riconoscimento. Per lasciare un' impronta che colpisce ed emoziona.

I materiali trendy e resistenti, selezionati e inalterabili rispondono alla necessità di dare il massimo della pregevolezza e al contempo valorizzare le strutture dal design contemporaneo scelte da **Vezzosi** per creare un nuovo concetto di salone funzionale e all'avanguardia.

**Vezzosi** mira a valorizzare la propria produzione **Made in Italy** per aiutare il consumatore a comprendere l'importanza del binomio "qualità e creatività".

# Denis Santachiara

CURVE: a modern collection with an innovative design and sinuous lines, the perfect union between form and function.  
 CURVE by Santachiara writes a new page in the Design world.  
 The creative impulse has been cultivated with curiosity, freedom and intensity. This is how Curve is born, the new collection that permits us to keep telling our story after POD and APP collections.  
 Denis Santachiara is not your run-of-the mill designer and is something of an outsider on the international circuit, but he is renowned for his works of art and design, which are exhibited in museums and events all over the world. Featured at the Venice Biennial back in the early Eighties, his works can now be seen in the permanent collections at the Moma in New York, at the National Museum of Modern Art in Tokyo and the Musée des Arts Décoratifs at the Louvre and at the Milan Triennial.  
 If we had to define Denis Santachiara using a synonymus of Designer, we could use with no doubts the word "Inventor".

## CURVE

by Santachiara

CURVE: una linea moderna, innovativa e dal design ricercato, dalle linee sinuose, il perfetto connubio tra forma e funzione.  
 Curve by Santachiara riscrive una pagina nel mondo del design.  
 L'impulso creativo è stato coltivato con curiosità, libertà e intensità e così è nata CURVE, nuova linea che ci dà la possibilità di continuare a raccontare la nostra storia dopo POD e APP.  
 E' attraverso la scelta dei particolari che si esprime la personalità di un arredo, il salone diventa un palcoscenico dove si assiste ad un cambiamento.  
 Denis Santachiara, designer anomalo e outsider nel panorama internazionale, famoso per le sue opere tra arte e design, esposte in musei e manifestazioni in tutto il mondo. Ospite alla Biennale di Venezia già agli inizi degli anni Ottanta, è presente con collezioni permanenti al Moma di New York, al National Museum of Modern Arts di Tokyo, al Musée des Arts Décoratifs del Louvre e alla Triennale di Milano.  
 Quando si parla di Denis Santachiara si parte dal concetto di "sorprensione", un termine che lui stesso ha coniato per spiegare il suo design, i suoi interni, gli arredi e gli allestimenti davvero unici nel panorama del progetto: sono oggetti e progetti che innovano e che fanno della trasformabilità non una artificiale e artificiosa caratteristica, quanto l'unica caratteristica possibile.  
 Se dovessimo definire Santachiara cercando un sinonimo di designer, potremmo senza paura scomodare un termine che sembra coniato per lui: inventore.

CURVE: une collection moderne avec un design novateur et des lignes sinueuses, la combinaison parfaite entre la forme et la fonction.  
 L'impulsion creative a été cultivée avec curiosité, liberté et intensité; dans cette manière est née Curve, la nouvelle collection qui nous permet de continuer à raconter notre histoire après Pod et App collections.  
 Denis Santachiara designer hors du commun et outsider dans le panorama international de l'innovation, Denis Santachiara est célèbre pour ses oeuvres à mi-chemin entre art et design, exposées dans les musées du monde entier et à l'occasion de nombreuses manifestations.  
 Invité à la Biennale de Venise dès le début des années 80, Santachiara est présent à travers des collections permanentes au Moma de New York, au National Museum of Modern Art de Tokyo, au Musée des Arts Décoratifs du Louvre, ainsi qu'à la Triennale de Milan.  
 Si on devait définir Denis Santachiara avec un synonyme de Designer on pourrait utiliser sans aucun doute le mot "inventeur".
